REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Regarding claim 1: The prior art of record neither shows nor suggests an axial tube projecting from a central portion of a bottom wall of a recession, in combination with an inclined face of a clamping member in contact with an inclined face of a peripheral support edge, allowing said clamping member to slide relative to the support member.

Regarding claim 4: The prior art of record neither shows nor suggests an axial tube projecting from a central portion of a bottom wall of a recession, in combination with an annular groove between a central hole and a peripheral support edge of a support member, allowing stable movement of a clamping member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kim et al (US PAP No. 2004/0216154 A1) show a holder for disk drives (see especially Figs. 4-9).
